FREE PLAYBOOK · HOME-SERVICE SALES

Compliments of GSD 500 BPO

The 96-Step Year-Round Prospect Journey

Make one database sell all year. When a homeowner says "not now," don't let them die in a spreadsheet: pivot by season and by trade, and keep a real reason to talk for 365 days.

PHASE 1 · DAYS 1-90
Water treatment
24 steps · your core product

PHASE 2 · DAYS 91-180
Roofing, solar & storm restoration
24 steps · the next big-ticket need

PHASE 3 · DAYS 181-270
Windows & doors
24 steps · comfort & home value

PHASE 4 · DAYS 271-365
HVAC & indoor air
24 steps · comfort all year

96 AUTOMATED STEPS

4 TRADES / SEASONS

365 DAYS OF FOLLOW-UP

1 DATABASE

01 · THE IDEA

One database. Four reasons to call.

Most home-service companies sell in one season. The rest of the year, their database just sits there.

A homeowner says **"not now."** Most companies send two or three follow-ups, then give up. But that homeowner still has a roof, windows and an air conditioner. They will buy *something* this year. The only question is from whom.

THE PIVOT

Same prospects. A new reason to talk, every season. When your core trade goes quiet, the journey moves the conversation to the next thing that house needs.

PHASE 1 · DAYS 1-90
Water treatment
Re-engage on the product they already saw. Health, money, then a final push.

→

PHASE 2 · DAYS 91-180
Roofing, solar & storm restoration
The homeowner who cares about the house now hears about the roof over it: energy, protection, storm readiness.

→

PHASE 3 · DAYS 181-270
Windows & doors
Comfort, quiet, efficiency, security and home value. Adjust the copy for owners vs. renters.

→

PHASE 4 · DAYS 271-365
HVAC & indoor air
Air quality, comfort and efficiency. After ~270 days of nurture, check what they already bought and personalize.

Pivot on events, not just the calendar

Seasonal pivots

- **Summer heat** → air conditioning, windows, energy bills.
- **Winter** → heating, windows and drafts.
- **Spring / dry season** → roofing, solar, exterior work.
- **Year-round** → your core product (here: water treatment).

Event pivots (overrides)

- **Construction slows** → pivot crews and messaging to roofing.
- **A storm rolls through** → pause the current phase, send a short storm-restoration burst (steps 34 and 39 are built for this), then resume.
- **Heat wave / first freeze** → pull the HVAC phase forward.

The example in this playbook runs **Water** → **Roofing, Solar & Storm Restoration** → **Windows** → **HVAC**. That is just the example. Use the **Swap Your Trades** worksheet (page 9) to drop in your own four trades, in the order your seasons and crews need them.

What's inside

Section	What you get
How it works	The trigger, the 4 phases, 3 chapters per phase, stop rules, personalization fields
The 96 steps	Every step: day, channel, message theme, angle and goal
Swap Your Trades	A one-page worksheet to adapt the pivot to your business
CRM mapping	How stages, tags, workflows and fields map to Zoho CRM, GoHighLevel and HubSpot
Files	Importable `96-step-journey.csv` and `.json` come with this playbook

02 · HOW IT WORKS

The trigger: a deal that stalls

The journey starts after your normal sales follow-up fails. A rep runs six negotiation touches after the visit or quote. If NEG-6 passes with no close and no reply, the prospect drops into Phase 1 automatically. **Day 1 of the journey is the day after NEG-6.**

Step	Day*	Channel	Subject / theme	Angle
NEG-1	0	Email SMS	**What are you really spending today?**	Reveal the real math from the visit: `{Monthly_Cost_Current}`, `{Annual_Cost}`.
NEG-2	3	Email	**Your system pays for itself in X months**	Break-even: `{Annual_Cost}` over 5 years vs. `{Quote_Amount}`.
NEG-3	6	Email SMS	**What your neighbors in `{City}` are enjoying**	Local social proof (real, with permission).
NEG-4	9	Email	**Your questions, answered**	FAQ: price, financing, need. Payment framing.
NEG-5	12	SMS	**One last question, `{First_Name}`**	Personal text from `{Rep_Name}`. Drives a reply.
NEG-6	15	Email	**My last note for now**	Warm breakup. No reply after this -> Phase 1 starts.

*Suggested spacing (about 2 weeks total). Tune it to your sales cycle.

Four phases, three chapters each

Each phase is **24 steps over about 90 days** for one trade. Every 8 steps is a **chapter** with a new angle, so the messages never feel like the same blast on repeat:

CHAPTER 1 · STEPS 1-8
Why it matters
Health, family, comfort or energy. Educate and earn attention.

→

CHAPTER 2 · STEPS 9-16
Money & value
Their real numbers, savings, financing, home value, proof.

→

CHAPTER 3 · STEPS 17-24
Final push & pivot
Re-engage, offer, a yes/no question, then a warm bridge to the next trade.

The last step of each phase is a **breakup-and-bridge** email: "I'll stop writing about this, but here's something different that may interest you." That line is the pivot.

Stage map

Stage	Enters when	What runs
Negotiation	Visit or quote done, prospect interested	NEG-1 to NEG-6
Prospect Journey: Phase 1 (Water treatment)	NEG-6 done, no close	Steps 1-24, tags JOURNEY-P1-01 to -24
Prospect Journey: Phase 2 (Roofing, solar & storm restoration)	Step 24 done	Steps 25-48, tags JOURNEY-P2-01 to -24
Prospect Journey: Phase 3 (Windows & doors)	Step 48 done	Steps 49-72, tags JOURNEY-P3-01 to -24
Prospect Journey: Phase 4 (HVAC & indoor air)	Step 72 done	Steps 73-96, tags JOURNEY-P4-01 to -24
Long-Term Prospect	Step 96 done, no close, no opt-out	No automation. Quarterly manual check-in by a rep.
Do Not Contact	STOP or unsubscribe at any point	Nothing. All sequences end.

Exit and stop rules: build these first

Stop immediately

- **STOP reply or email unsubscribe**, at any step: end every sequence that second. Stage = Do Not Contact. Never re-enroll automatically.
- Check the opt-out status **before every send**, not only at enrollment.

Hand off to a human

- **Any reply**: pause the journey and route the conversation to a live rep.
- **Interest in a new trade**: open a new deal for that trade and pause the journey.
- **They buy**: move to customer onboarding. Later phases can skip the trade they bought.

Keep it clean

- **One tag per step** (e.g. JOURNEY-P2-07). If the tag exists, skip. No duplicate sends.
- **No mobile number**: skip SMS steps, keep email. No email: SMS only.
- Send during reasonable local hours.

When it ends

- Phase end → next phase starts automatically.
- Step 96 → Long-Term Prospect: no more automation, a rep checks in quarterly.
- Add a sending limit per contact per week so nothing ever loops.

Personalization: mass automation that feels one-to-one

Every message pulls from fields your team already captures at the first visit. The merge fields in this playbook are platform-neutral; map them to your CRM's syntax (page 10).

Merge field	Captured when	How it personalizes
`{First_Name}`	Lead created	Greets by name in every email and SMS
`{City}` `{Zip}`	Web form or visit	Hyper-local copy: their city, nearby installs, local climate
`{Rep_Name}`	Owner assignment	Signs every message. Texts come "from" a person, not a brand
`{Company}`	Setup	Your brand name in signatures and offers
`{Visit_Notes}`	Rep fills during the visit	The richest field: problems found, household size, owner vs. renter, best contact times
`{Monthly_Cost_Current}` `{Annual_Cost}`	Quote / visit	What they spend today without your product. The anchor number for every savings message
`{Quote_Amount}`	Quote sent	Break-even and payment math in NEG and financing steps
Owner / renter	Visit	Renters skip roofing/solar; adjust windows and HVAC copy
Journey Day 1 (date)	Set by workflow after NEG-6	Anchors all 96 day offsets

Compliance note. Follow the TCPA and CAN-SPAM (and any state rules that apply to you). Get consent before sending marketing SMS, honor STOP and unsubscribe requests right away, and identify your company in every message. Get legal advice for your specific situation. This playbook is a marketing framework, not legal advice.

Keep it true. Testimonials, local install counts, rebates, financing terms and statistics must be real, current and sourced. Use real customer stories only with permission. Rebate and tax-credit programs change often, so verify them before every send.

Phase 1: Water treatment

Steps 1-24 · Days 1-90
Trade A: your core product

Re-engage on the product they already saw. Health, money, then a final push.

#	ID	Day	Chan.	Message theme	Angle	Goal
CHAPTER 1 · STEPS 1-8 Health & Family						
1	P1-01	Day 1	Email	**What's in your water, {First_Name}?**	Local water-quality education for {City}. Soft CTA: free report.	Educate
2	P1-02	Day 4	SMS	**3 things unfiltered water does to your family**	Short list (skin, hair, taste). Link to an education page.	Educate
3	P1-03	Day 7	Email	**The water your kids drink every day**	Family angle. Emotional, not alarmist. Product visual.	Connect
4	P1-04	Day 10	SMS	**Dry skin even with lotion?**	Hard-water link. Short and punchy. Before/after story link.	Engage
5	P1-05	Day 13	Email	**What's happening inside your pipes**	Scale buildup and appliance wear. Use {Visit_Notes} if relevant.	Educate
6	P1-06	Day 16	Email	**Customer story: "I can't believe what I used to spend"**	Real nearby customer, with written permission.	Proof
7	P1-07	Day 19	SMS	**Quick question, {First_Name}**	Personal check-in from {Rep_Name}. Invite a reply.	Reply
8	P1-08	Day 22	Email	**Your family deserves clean water**	Chapter recap. Bridge to savings. Soft CTA: book a call.	Book
CHAPTER 2 · STEPS 9-16 Money & Savings						
9	P1-09	Day 25	Email	**You're still spending {Annual_Cost} a year**	Lead with their own number from the visit. Reopen the math.	Re-open
10	P1-10	Day 28	SMS	**The math on bottled water**	Monthly bottle spend vs. system. One line, one number.	Engage
11	P1-11	Day 31	Email	**The real cost of bottled water (plastic included)**	Cost per gallon plus the environmental angle.	Educate
12	P1-12	Day 34	Email	**Your appliances will thank you**	Appliance lifespan and repair savings.	Educate
13	P1-13	Day 37	SMS	**What a household like yours saves in a year**	Household-size framing from {Visit_Notes}.	Engage
14	P1-14	Day 40	Email	**Financing: a payment vs. what you spend now**	Only terms you really offer. CTA: schedule a call.	Book
15	P1-15	Day 43	Email	**Customer story: first-year savings**	Real numbers, real customer, with permission.	Proof
16	P1-16	Day 46	SMS	**What would you do with {Annual_Cost} back?**	Imaginative close. CTA: book.	Book
CHAPTER 3 · STEPS 17-24 Re-Engagement & Final Push						
17	P1-17	Day 55	Email	**It's been two months. How's the water?**	Low-pressure time reference. Reply or book.	Re-engage
18	P1-18	Day 58	SMS	**A water update for {City}**	Only a real, sourced local notice. Urgency without panic.	Engage
19	P1-19	Day 61	Email	**We installed systems near you this week**	Local social proof. Send only when it's true.	Proof
20	P1-20	Day 65	SMS	**Ever tasted the difference?**	Offer a sample or a quick demo. Low friction.	Reply
21	P1-21	Day 70	Email	**Video: how the system works in 2 minutes**	Demo video email.	Educate
22	P1-22	Day 75	Email	**A local offer for {City} homeowners**	Real, time-limited promotion. Signed by {Rep_Name}.	Offer
23	P1-23	Day 80	SMS	**{First_Name}, can I ask one last question?**	What is stopping you? Invite a reply.	Reply
24	P1-24	Day 90	Email	**Closing this chapter. The door stays open.**	Breakup email + bridge: "something different that may interest you."	Pivot

Phase 2: Roofing, solar & storm restoration

Steps 25-48 · Days 91-180
Trade B: the next big-ticket need

The homeowner who cares about the house now hears about the roof over it: energy, protection, storm readiness.

#	ID	Day	Chan.	Message theme	Angle	Goal
CHAPTER 1 · STEPS 1-8	**Energy Bills & Solar**					
25	P2-01	Day 91	Email	**How much is your power bill, `{First_Name}`?**	Open with a question. Bridge from Phase 1 to energy.	Pivot
26	P2-02	Day 94	SMS	**Is your roof working for you?**	One line. Link to a savings estimate.	Engage
27	P2-03	Day 97	Email	**How a local family cut their power bill**	Case study, numbers-forward, with permission.	Proof
28	P2-04	Day 100	Email	**Rebates & incentives: what's actually available near you**	Verify current programs before every send. Never promise a credit.	Educate
29	P2-05	Day 103	SMS	**An aging roof costs you home value**	Roof angle. Free inspection offer.	Offer
30	P2-06	Day 106	Email	**One upgrade leads to the next**	Bundle with the Phase 1 product (bought or not).	Bundle
31	P2-07	Day 109	SMS	**What's your home worth with upgrades?**	Property-value framing.	Engage
32	P2-08	Day 112	Email	**Customer story: "Our bill dropped"**	Specific number, local customer.	Proof
CHAPTER 2 · STEPS 9-16	**Roof Protection & Storm Restoration**					
33	P2-09	Day 115	Email	**How old is your roof?**	Lifespan, signs of wear, local climate in `{City}`.	Educate
34	P2-10	Day 118	SMS	**After the last storm: free roof check**	Storm-damage inspection offer. Fire early if a storm hits.	Offer
35	P2-11	Day 121	Email	**The package your neighbors are choosing**	Roof + energy + Phase 1 product, as one plan.	Bundle
36	P2-12	Day 124	Email	**Is your roof ready for the next 25 years?**	Roof-first logic before any solar install.	Educate
37	P2-13	Day 127	SMS	**Financing available this month**	Real terms only. Limited-time framing only if true.	Offer
38	P2-14	Day 130	Email	**3 signs your roof needs attention now**	Visual checklist. Free inspection CTA.	Book
39	P2-15	Day 133	SMS	**Storm or water damage? We can help today**	Restoration angle: fast response, help documenting damage.	Reply
40	P2-16	Day 136	Email	**Our process: inspection to install in 3 steps**	Transparency. "No surprises." Timeline visual.	Trust
CHAPTER 3 · STEPS 17-24	**Final Close & Transition**					
41	P2-17	Day 145	SMS	**Has your power bill changed?**	Re-engage after a few months. Invite a reply.	Re-engage
42	P2-18	Day 150	Email	**Video: a real install in `{City}`**	Install footage near them.	Proof
43	P2-19	Day 155	Email	**Free inspection + savings analysis this week**	No-obligation offer, 30 minutes.	Book
44	P2-20	Day 158	SMS	**Book before the season turns**	Season-based urgency, honest about scheduling.	Book
45	P2-21	Day 162	SMS	**Can I send you your personalized analysis?**	Curiosity close. Ask for a simple OK.	Reply
46	P2-22	Day 167	Email	**What you could have saved since we talked**	Honest estimate. Compound urgency.	Re-open
47	P2-23	Day 172	SMS	**`{First_Name}`, roof & solar: yes or no?**	Binary: reply YES and I call today, NO and I leave you alone.	Close
48	P2-24	Day 180	Email	**Moving on, but this may interest you**	Breakup + bridge to Phase 3.	Pivot

Phase 3: Windows & doors

Steps 49–72 · Days 181–270
Trade C: comfort & home value

Comfort, quiet, efficiency, security and home value. Adjust the copy for owners vs. renters.

#	ID	Day	Chan.	Message theme	Angle	Goal
CHAPTER 1 · STEPS 1-8	**Comfort & Energy**					
49	P3-01	Day 181	Email	**Are your windows letting the heat in?**	Energy-leak education, local climate angle.	Pivot
50	P3-02	Day 184	SMS	**High cooling bill? It could be your windows**	3 warning signs. Link to a checklist.	Engage
51	P3-03	Day 187	Email	**The quiet you deserve**	Noise reduction. Quality of life.	Educate
52	P3-04	Day 190	SMS	**Is your home protecting you from the sun?**	UV damage to floors, furniture, skin.	Educate
53	P3-05	Day 193	Email	**How much new windows could cut your bill**	Savings estimate + financing.	Re-open
54	P3-06	Day 196	Email	**Customer story: cooler, quieter home**	Before/after comfort and bill.	Proof
55	P3-07	Day 199	SMS	**How old are your windows?**	Age awareness. Inspection offer.	Offer
56	P3-08	Day 202	Email	**Windows + energy upgrade = the savings combo**	Bundle back to Phase 2.	Bundle
CHAPTER 2 · STEPS 9-16	**Home Value & Security**					
57	P3-09	Day 205	Email	**Windows are the first thing buyers notice**	Curb appeal and resale value.	Educate
58	P3-10	Day 208	SMS	**Security glass: protection you don't see**	Safety angle: tempered/laminated options.	Engage
59	P3-11	Day 212	Email	**3 window styles transforming homes in `{City}`**	Design and style options, visual email.	Educate
60	P3-12	Day 216	SMS	**Kids' rooms run hottest**	Family comfort. Back-to-school timing.	Engage
61	P3-13	Day 219	Email	**Financing: a monthly payment you can plan for**	Payment framing + estimate tool.	Offer
62	P3-14	Day 222	SMS	**We just installed on a street near you**	Neighborhood proof. Send only when it's true.	Proof
63	P3-15	Day 225	Email	**Guide: choosing windows for `{City}`'s climate**	Value content. Positions `{Company}` as the expert.	Trust
64	P3-16	Day 228	SMS	**How comfortable is your home on the hottest days?**	Seasonal pain-point question (heat or cold).	Reply
CHAPTER 3 · STEPS 17-24	**Final Close & Transition**					
65	P3-17	Day 235	Email	**It's been 6+ months. Anything changed at home?**	Long-term check-in from `{Rep_Name}`.	Re-engage
66	P3-18	Day 240	SMS	**Seasonal install offer for `{City}`**	Real seasonal promotion.	Offer
67	P3-19	Day 245	Email	**5 upgrades that raise your home's value this year**	Full-home partner framing (all four trades).	Trust
68	P3-20	Day 248	SMS	**Free visit or quick call?**	Two options: reply VISIT or CALL.	Book
69	P3-21	Day 252	Email	**Video: old window vs. new**	Before/after demo (thermal camera works well).	Proof
70	P3-22	Day 258	Email	**Last chance: free window assessment**	Limited weekly slots (real capacity only).	Book
71	P3-23	Day 263	SMS	**`{First_Name}`, windows: yes or no?**	Same binary format as step 47.	Close
72	P3-24	Day 270	Email	**One more piece of a comfortable home**	Breakup + bridge to Phase 4.	Pivot

Phase 4: HVAC & indoor air

Steps 73-96 · Days 271-365
Trade D: comfort all year

Air quality, comfort and efficiency. After ~270 days of nurture, check what they already bought and personalize.

#	ID	Day	Chan.	Message theme	Angle	Goal
CHAPTER 1 · STEPS 1-8 Air Quality & Health						
73	P4-01	Day 271	Email	**Is the air inside your home clean?**	Indoor air education. Mirrors the Phase 1 opener.	Pivot
74	P4-02	Day 274	SMS	**Dust, allergens, mold: what your family breathes**	Health angle: ducts and filters.	Educate
75	P4-03	Day 277	Email	**Allergies or asthma at home?**	Filtration and fresh air, family angle.	Connect
76	P4-04	Day 280	SMS	**Better air, better sleep**	Temperature and humidity for sleep.	Engage
77	P4-05	Day 283	Email	**Clean water + clean air = a healthy home**	Bundle back to Phase 1 (bought or not).	Bundle
78	P4-06	Day 286	Email	**Customer story: "Our kids breathe easier"**	Health outcome, real story, local if possible.	Proof
79	P4-07	Day 289	SMS	**When was your system last serviced?**	Tune-up / free inspection offer.	Offer
80	P4-08	Day 292	Email	**The real cost of an old system**	Efficiency loss, repair costs, energy waste.	Educate
CHAPTER 2 · STEPS 9-16 Efficiency & Savings						
81	P4-09	Day 295	Email	**What do you spend on heating + cooling a year?**	Annual cost estimate for `{City}`.	Re-open
82	P4-10	Day 298	SMS	**Efficiency ratings, explained simply**	What the rating on the unit means for the bill.	Educate
83	P4-11	Day 302	Email	**Whole-home package: special pricing**	All four trades as one plan.	Bundle
84	P4-12	Day 305	SMS	**HVAC financing: a payment vs. today's bills**	Monthly framing. Real terms only.	Offer
85	P4-13	Day 308	Email	**Is your system ready for the coming season?**	Seasonal urgency: install calendars fill up.	Book
86	P4-14	Day 311	SMS	**Smart thermostats: control it from your phone**	Technology angle.	Engage
87	P4-15	Day 315	Email	**Customer story: "Our bill went down"**	Specific, real number.	Proof
88	P4-16	Day 318	Email	**Your home in `{City}` deserves the best**	Trust: years serving the area, local team.	Trust
CHAPTER 3 · STEPS 17-24 Final Push & Long-Term Loop						
89	P4-17	Day 325	Email	**We've been in touch almost a year, `{First_Name}`**	Relationship thank-you. Warm tone.	Connect
90	P4-18	Day 330	SMS	**Has anything changed at home this year?**	New baby? Remodel? Selling? Open question.	Reply
91	P4-19	Day 335	Email	**The best upgrade for your family this year**	Year-end summary of the whole-home vision.	Trust
92	P4-20	Day 340	SMS	**Can I offer one last free home visit?**	30-minute no-obligation assessment.	Book
93	P4-21	Day 345	Email	**A thank-you offer for long-time contacts**	Loyalty pricing (real, not inflated).	Offer
94	P4-22	Day 350	SMS	**HVAC: yes or no? One word is fine.**	Binary close.	Close
95	P4-23	Day 358	Email	**Thank you for a year of conversation**	Genuine thank-you. Not a pitch.	Connect
96	P4-24	Day 365	Email	**See you next year. We're here when you need us.**	Stage -> Long-Term Prospect. Tag JOURNEY-COMPLETE.	Exit

05 · WORKSHEET

Swap your trades: build your own pivot

The 96-step structure stays the same. Only the trades and the hooks change. Fill this in with your team in 20 minutes, then rewrite the 24 themes of each phase for your trade (keep the chapter pattern: why it matters → money & value → final push & pivot).

	Phase 1 · Days 1–90	Phase 2 · Days 91–180	Phase 3 · Days 181–270	Phase 4 · Days 271–365
Trade / product				
Best season or months				
Who it fits (owner, renter, home age…)				
Chapter 1 hook (why it matters)				
Chapter 2 hook (money & value)				
Real offer we can make				
Proof we have (stories, photos, video)				
Bridge line into the next trade				

Event overrides: what pulls a phase forward?

When this happens…	…we pivot to	Steps / burst we send
A storm hits our area		
New construction slows down		
Heat wave / first cold snap		
Our own idea:		

Example rotations

Your core business	Phase 1	Phase 2	Phase 3	Phase 4
Water treatment (this playbook)	Water	Roofing, solar & storm	Windows	HVAC
Roofing contractor	Roofing	Gutters & storm restoration	Windows & siding	Solar
HVAC company	Cooling	Indoor air & ducts	Heating	Water heaters / water treatment
Restoration company	Water & storm damage	Roofing	Mold & air quality	Remodel / flooring

No in-house crew for a trade? Partner with a trusted local company and route the deal. You keep the relationship.

06 · CRM MAPPING

It runs on the CRM you already have

We build the logic; you keep your platform. Here is how each building block maps. Feature names, limits and plan tiers change, so check what your plan includes.

Building block	Zoho CRM	GoHighLevel	HubSpot
Journey stage	Deal *Stage* picklist in your pipeline	Opportunity pipeline stage	Deal stage in a deal pipeline
Step tracker (JOURNEY-P1-01…)	Record tags	Contact tags	No contact tags: use a custom property (e.g. last step completed) or list membership
Sequence engine (delays, branches)	Workflow rules with scheduled actions (or Cadences)	Workflows: Wait steps, If/Else branches	Workflows with delays and if/then branches; Sequences for 1:1 rep email
Day-1 anchor	Custom date field; date-based workflow trigger	Custom date field; wait-until / date-based trigger	Date property; delay until date / date-based workflow
Merge fields	Template merge fields, e.g. `${Contacts.First Name}`	Custom values / fields, e.g. `{{contact.first_name}}`	Personalization tokens, e.g. `{{ contact.firstname }}`
Custom fields (Visit Notes, Annual Cost…)	Custom fields per module	Custom fields (contact / opportunity)	Custom properties
SMS	Through an SMS integration from the Zoho Marketplace	Built-in SMS (LC Phone or your own Twilio)	HubSpot SMS add-on (plan-dependent) or an integrated SMS app
Opt-out gate	Email Opt Out field + an SMS opt-out field; check both before each send	DND settings per channel	Email subscription status; SMS opt-out handled by your SMS tool
Stop on reply	Inbound reply updates a field → workflow moves stage and stops	"Customer replied" trigger / goal step to exit the workflow	Unenrollment criteria in the workflow; Sequences unenroll on reply
Rep hand-off	Task + owner notification	Internal notification + task	Task + owner notification

Build order that avoids pain

1	Opt-out gate and STOP handling. Test it with your own phone before anything else.
2	Stages, tags and the Day-1 date field.
3	Phase 1 only (24 steps). Watch it for 2-3 weeks: replies, opt-outs, duplicates.
4	Reply and new-trade hand-off to reps.
5	Phases 2-4, then the event overrides.

Channel mix in the template: **58 email + 38 SMS** across 96 steps (about one touch every 3-4 days, slowing down near the end of each phase).

07 · NEXT STEP

One database. 96 steps. 365 days.

Stop starting from zero every season. You now have the whole blueprint: the trigger, the four phases, every step, the stop rules and the CRM map. Build it yourself, or let us do it.

GSD 500 BPO

Want us to build and run it for you?

We set up the stages, tags, workflows and messages on your CRM (Zoho CRM, GoHighLevel or HubSpot), write the 96 messages for your trades, and staff the reps who answer every reply.
